

CANDIDATES WELCOME

Product Manager DNA

We develop insights- for the health and life of people

We are a leading, future-oriented young company for biosensors and digital diagnostic platforms. We build the core competencies of our company on the qualifications of our employees and their many years of practical experience. At our location in Berlin-Adlershof with about 30 employees we develop and produce a novel digital diagnostic platform for rapid antibody diagnostics and soon also revolutionary DNA rapid diagnostics.

We address industrial companies, laboratories, physicians, clinics and pharmaceutical companies that require timely results and reliable statements in the field of immune and targeted DNA diagnostics.

The company is constantly growing. Immediately we are looking for a **Product Manager DNA**

Your tasks

- Strategic management of iDx DNA diagnostics, based on international market observations and assessments, competitor analyses, etc.
- Identification of new diagnostic products and new market potentials
- Coordination of product-relevant activities with interfaces to marketing, sales, R&D and production
- Identify trends and obtain all necessary detailed information to achieve sales targets
- Specifications for the development of market-driven products, new product ideas and innovation opportunities
- Ensure that the prescribed procedure for obtaining the CE IVD mark (ISO 13485, IVDR) is followed.
- Preparation of the product launch as well as implementation and launch of iDx DNA diagnostic products
- Responsibility for regulatory product documentation in relation to market introduction (e.g. scientific validity, user requirements, market requirements, etc.), and post-market surveillance & follow-up
- Visits to scientific congresses, symposia and trade fairs
- Preparation of technical specifications for marketing and the correct, timely and legally compliant presentation of the assigned products in all information sources available to the client (e.g. catalogues, websites, product/price lists, etc.)
- Product training for end-users, key account managers and distributors

Your profile

- Successfully completed scientific studies in the field of biology, chemistry, biochemistry, food chemistry or comparable, ideally doctorate with focus on molecular biology
- Professional experience as Product Manager
- Knowledge of molecular biology, DNA analysis (FISH, PCR, NGS), basic knowledge of bioinformatics, medical informatics, human genetics and/or oncology as well as knowledge of the typical system landscape (LIMS, study system, electronic patient record)

- Business fluent in German and English
- Willingness to travel worldwide

Your personality

- High level of customer-oriented service understanding
- Enthusiastic dynamic personality with excellent communication skills and presentation professional
- Structured and service-oriented approach to work and work organization
- Organizational talent and strong communication skills

Our offer

- A great team in a company that is on a very successful path
- Personal and professional career opportunities
- Benefits such as company pension plan
- Free drinks (coffee, tea, water) fruit and vegetables in the office
- Possibility of mobile working
- Freedom to develop and implement your own ideas
- Attractive compensation
- A dynamic and innovative working environment in the heart of the biotech scene in Berlin-Adlershof

If you would like to be part of something big and you see yourself in the profile, we look forward to receiving your complete application documents with earliest possible starting date to Sabine Massenkeil-Kultus, career@inventicsdx.com.
